## DOWN IN A WRECK.

Temporary Superstructure of a Bridge Over Harlem River, New York, Collapses.

## TOO MUCH WEIGHT ON THE CRANE.

Four Men Were Killed Onright and Six Injured, One of Whom Can Not Live.

Twenty-Five or Thirty Men Were On the Structure at the Time of the Collapse—Many of Them Were Carried Down in Wreck.

NEW YORK, April 12.—The temporary superstructure of the big Williams avenue bridge now being built over the Harlem river collapsed Tuesday afternoon, killing four men and seriously injuring six, one of whom may die. Twelve or more other workmen also received injuries of a more or less serious nature.

The accident occurred at 2:30 o'clock and was caused by the great weight being put on the traveling derrick that crossed the superstructure.

The superstructure connected the north shore sustaining wall with a pier and was a trolley affair strung 200 feet across a deep water, built in three sections, one above another to a height of about 60 feet. Over this a massive traveling crane or carrier was operated. Twenty-five to 30 men were employed on the structure when the collapse occurred. A heavy load of steel beams was being sent on the crane when the timbers gave way and the entire structure went down with a crash.

As the supporting timbers began to give, the heavily laden crane rapidly forward for a short distance and toppled into the river. The men fell down, the upright crashed into the working men, striking the Delany and Beattie, killing them instantly and terribly mangled their bodies.

Many of the men were carried down in the wreck.

## AS MINISTER TO SPAIN.

Bellamy Storer Has Been Selected for the Position—His Selection Commends a "Flattering Promotion."

WASHINGTON, April 12.—The appointment of Bellamy Storer as minister to Spain has been determined upon by the president.

Mr. Storer's selection for the Madrid mission is a distinct promotion in the diplomatic line. The difference in compensation is not considerable, but the new minister to Madrid will have very important duties to perform, including the early negotiation of a general treaty of trade and comity.

It is assumed here that the Duc d'Alto, late Spanish minister to Mexico, will be named as minister to Washington.

MANILA, April 12.—It is supposed that many of the rebels who attacked Gen. MacArthur's line of communication and who were repulsed by the troops commanded by Gen. Wheaton were natives who entered the region in the guise of friends. They had seemingly secreted arms in several places, and fired on the Americans from the bushes at so close a range that they could be heard talking. One of the Filipinos yelled in English: "We will give you—Americans—money."

The rebels undermined the railroad at Maricao and unspiked the rails in an effort to wreck a train, while the railroad gang participated in the fight.

The work of the rebels was discovered and repaired before a train arrived.

Gen. Wheaton is preparing to punish the Filipinos.

The military gunboats Napidan and Laguna de Bay have succeeded in entering the Santa Cruz river and have captured a small unarmed Spanish gunboat and three launches which they discovered there.

The military gunboat Oeste has brought 33 rebels wounded, one dead Filipino and six wounded Americans to the hospital. It is now known that 33 insurgents were killed during the capture of Santa Cruz.

A RECORD BREAKER.

The Albatross, New English Torpedo Boat, Attains a Speed of Thirty-Three Knots an Hour.

LONDON, April 12.—The Albatross, a new type of torpedo boat destroyer, just built at the yards of Thornycroft & Co., at Chiswick, has attained a speed of 33 knots, making this record on her trial trip with the admiralty officials on board. This is the highest speed ever made by a vessel.

The destroyer is 277 feet long and 21 feet in the beam, with a draught of 8 1/2 feet.

Steamer City of St. Louis Quarantined.

ST. LOUIS, April 12.—The steamer City of St. Louis, Capt. Thorngren, from New Orleans, is quarantined at the southern limits of St. Louis because of a case of snailpox found on board. She has 30 first-class and 35 second-class passengers, with 100 deckhands on board.

She is compelled to stay until all danger of contagion is removed.

Flaming Schooner Wrecked.

HALLAM, N. S., April 12.—A wreck reported Monday night off the Cape coast is taken to be that of a fishing schooner, from the wreckage found.

## FURIOUS ATTACK.

Filipinos Made a Desperate Onslaught on Gen. MacArthur's Railway Line.

## OUR LOSS 3 KILLED AND 20 WOUNDED.

The Rebels Were Repulsed by the Command of Gen. Wheaton and Suffered a Heavy Loss.

Gen. Lawton is Pushing the Enemy Into the Mountains Beyond the City—His Success at Santa Cruz Was Overwhelming.

WASHINGTON, April 12.—The war department has received a dispatch from Gen. Otis announcing the success of Gen. Lawton's campaign in the capture of Santa Cruz. He says that Gen. Lawton is pushing the rebels into the mountains beyond the city. Gen. Otis also informs the war department that the insurgents made an attack upon Gen. Wheaton's brigade and that they were repulsed with heavy losses.

WASHINGTON, April 12.—The following dispatch has been received from Gen. Otis:

MANILA, April 11.—Adjutant General. Washington: Insurgent attack on MacArthur's line of railway communication last night in considerable force; repulsed by Wheaton, with heavy loss. Wheaton's casualties, 3 killed, 20 wounded.

OTIS.

The attack of the insurgents upon the railway north of Manila indicates to the war department officials that while Gen. MacArthur is pushing north bodies of insurgents took to the mountains and jungles to the right of the railway, and have been watching an opportunity to capture the road at some point and cut off the main body of the army to the northward. The repulse of the natives shows that they had not sufficient force to accomplish their purpose.

MANILA, April 12.—At about midnight the rebels cut the telegraph line at several places between here and Malolos and signal fires were lighted and rockets sent up along the foothills to the right of the railroad. Later the enemy attacked the outposts of the Minnesota regiment between Bigaa and Boavie, five miles south of Malolos, killing two men and wounding 14.

Simultaneously the outposts of the Oregon regiment at Maricao, the next station on the way to Manila, were attacked with the result that three Americans were killed and two wounded. The loss of the enemy was ten killed and six wounded. Troops were concentrated on the railroads as far as possible and the rebels were driven back to the foothills.

The road bed of the railroad was damaged but it was repaired immediately, and traffic was soon resumed to Malolos.

MANILA, April 12.—It is supposed that many of the rebels who attacked Gen. MacArthur's line of communication and who were repulsed by the troops commanded by Gen. Wheaton were natives who entered the region in the guise of friends. ## PRINCIPAL GUEST.

Ambassador Joseph Choate at a Banquet Given at the London Reform Club.

## DISTINGUISHED PERSONS PRESENT.

Mr. Choate Responded to the Toast of Foultnie Bigelow to the Health of President McKinley.

An Understanding Between the Two Countries That Will Be a Benefit to Both and That the World in General—Four Good Books.

LONDON, April 12.—Joseph Choate, the United States ambassador, was the principal guest at a banquet given Tuesday evening at the Reform club by Foultnie Bigelow. The company included Sir John Lubbock, Lord Roseford, Baron Chesham, Baron Acton, Baron Monkswell, Baron Hobhouse, Lord Ronald Sutherland Gower, Sir Colin Scott Moncreiff, Gen. John Macdonald, commander in the Woolwich district; Gilbert Parker, Anthony Hope, Geoffrey Alfred Henty.

Among the table decorations were four books which Mr. Bigelow, in a festive mood, had chosen and read as much as anything to bring together our two nations. They were Capt. Alfred T. Mahan's "Influence of Sea Power in History," Sir George Otto Trevelyan's "History of the Social Revolution," Mr. Henderson's "Life of Stonewall Jackson," and Prof. Bryce's "The American Commonwealth."

In responding to the toast to the queen, Mr. Choate, in a few words, of his cordial reception by the American people and President McKinley, which he believed, was accorded him "solely on account of the good feeling now existing between our two countries a feeling which will make for the peace of the world."

At the conclusion of his response, he proposed the health of President McKinley.

Mr. Choate, responding, alluded to his more than friendly reception here and said that while he did not believe the two countries would march shoulder to shoulder, as Lord Charles Darnley suggested, he was convinced there would hereafter be a good understanding between the two, which would be a benefit to both and to the world in general.

"And not only the books," he said, "to which our host has alluded, have contributed to this happy result, but other books, some of them written by men who were in the front of the lions in America, have helped this understanding, while the American authors have likewise contributed their share. For instance, a book I now find on the tables of aristocratic houses in England is Mr. Dooley in Peace and War."

The Daily News, Wednesday morning, referring to Mr. Choate's speech at a dinner Tuesday night given him by Mr. Bigelow, says: "Mr. Choate's speech was quite unique among public utterances. It was a model of impromptu eloquence, remarkable for the orderliness which brought every passing digression and allusion into the service of brilliant improvisation."

THEY CUT OFF THEIR QUITS.

It Stopped the Chinese From Leaving After the Filipino Insurgents Evacuated the Town.

WASHINGTON, April 12.—The incoming mail from Manila brings many queer stories connected with the new progress between the United States troops and insurgents. When MacArthur led the first onslaught to the northward, the insurgent stronghold of the United States military commanders were amazed at the extent of the looting practices by the non-combatants. The Chinese took a leading part in this looting, bringing it before the retreating insurgent forces were fairly out of a town. They apparently had no conception of the enormity of their offense and it had been relatively unopposed. They had some of these Chinese looters for the sake of example, when a young officer cut off the queues of a dozen Chinese, who had been taken red handed, the looting stopped and the Chinese disappeared as if by magic from the whole province.

Forty Persons Drowned in a Collision.

MALTA, April 12.—The British steamer Kingswell, Capt. Humphreys, arrived here Tuesday and reports being in collision with the Greek steamer Maria in latitude 35, longitude 32, in the Mediterranean, off the coast of Tripoli. The Maria was sunk, 43 persons going down with her. The Kingswell left Alexandria last month for Eupatoria. She was uninjured.

## TO ESCAPE A MOB.

The Alleged Assassin of Mrs. Butler Taken From London to Washington C. B. by the Sheriff—He Confesses.

SPRINGFIELD, O., April 12.—Mrs. Jas. Butler, wife of a well to do farmer, was fatally shot Tuesday morning, because of a mob, at a hotel, at her home, located about three miles from South Charleston.

The murder was committed by an unknown man, and as far as known, the motive was robbery, as the family is quite a wealthy one, and the man probably expected to find considerable money in the house.

SPRINGFIELD, O., April 12.—The German tramp, the outrager and murderer of Mrs. Butler, captured Tuesday afternoon by Marshal Allen at Jeffersonville, had a revolver and three large knives upon his person. It is reported here on good authority that the marshal and his deputies started with the desperado in the direction of London, O., but afterward turned in their course and in closed carriages rushed to the jail at Washington C. B., so as to lodge the prisoner in jail before the arrival of mobs from South Charleston and other points along the route to London. It has been announced that the mob here had a mob of 175 left South Charleston Tuesday evening in pursuit of the prisoner.

Karl Leckman, the alleged assassin of Mrs. Butler, of London to Washington C. B. Tuesday afternoon to escape a mob. Sheriff Wilson communicated with Gov. Bushnell regarding the protection of the man, but thought no militia was necessary, as there are no evidences of a mob, everything being quiet Tuesday night. Sheriff Wilson received word Tuesday night that Mrs. Butler is not yet dead, but can not yet be taken out and carried to Tuesday night to Sheriff Wilson that he shot Mrs. Leckman, saying also he had intended to kill himself.

ARMY REORGANIZATION.

Order Prepared by War Department to Place in the Field—The General Officers to Be Mustered Out.

WASHINGTON, April 12.—An order has been prepared at the war department for a reorganization of the army on a peace basis and it probably will be issued Wednesday. Most of the general officers of the volunteer establishment will be mustered out and radical changes made in the staff departments of the same including the discharge of about 60 paymasters.

With the exceptions of Gen. Otis, Shafter, Lawton and MacArthur, all the volunteer major generals will be discharged, including Gens. Wade, Wilson, Lee, Wheeler, Bates, Young, Anderson, Bluffe, Sumner, Ludlow, Hendon and Wood. Of the above Gens. Wheeler, Lee and Wilson hold commissions of a lower grade than regular army and consequently will not necessarily have to relinquish their present commissions.

Under its reorganization the army is entitled to two additional major generals and Gens. Otis and Shafter have been chosen for these appointments.

THEY EXCHANGED TREATIES.

Official Peace is Declared Between the United States and Spain One Year After Armed Intervention Was Urged.

WASHINGTON, April 12.—A scene that will go down in history took place at the executive mansion Tuesday. It was the exchange of the peace treaties between the government of the United States and the Spanish government.

A peculiar incident lies in the fact that just one year ago Tuesday President McKinley sent to congress his famous message advocating armed intervention on the part of the United States in behalf of the Cubans. This was really the slogan of war.

Just one year to a day afterward the United States government representing the interests of the Spanish government, bowed himself into the presence of the president of the United States and delivered into his hands the copy of a treaty signed by the queen regent, Maria Christina, the humiliating terms of which were virtually dictated by the American members of the Paris conference.

They Died Together.

OMAHA, Neb., April 12.—Mrs. Daisy O'Neill, Mrs. Kitty Overly, who have recently had trouble with their husbands, decided to die together Tuesday night and took 30 grains of morphine with fatal results. They were both dead before the police were called recently from Burlington, Ia.
